4.7/5 stars . After recovery, enable USB debugging from Developer Options. Why we have to pay this price to update our device?. 9.2.1. 3.76. Flash the twrp zip on your phone via Odin. 1.exe (Google Play-APK) 2.zip . Hello and welcome to our post about the latest released versions of Mobile ODIN for Android.. This version optimizes the compatibility of the FLASH-command to the combination of: .Q: Creating the smallest image as a file extension I have a product server script that outputs I'm wondering what would be the best way to go about adding a "-small" file extension to these so that.jpg.small becomes.jpg, and.jpg.small.jpg becomes.jpg.js? EDIT: I also need to add that my products are displayed out in tables in a wordpress loop. I am trying to take advantage of the logic used in their featured images (which use image and caption and filename.jpg to create the right size and filename when a featured image is clicked on). I haven't managed to figure this one out yet, if anyone could shed some light on this. A: I think that you are looking for this: You should also look into the.htaccess rules you are using to contain the filenames. The above image will end up looking like: // Copyright (c) Microsoft Corporation.
